

JMH International, Inc.

jmhamerica.com is owned and operated by JMH International, Inc. We strongly believe that people are overworked today and never take enough time to relax. Did you know that your muscles are constantly working even while you are at a relaxed state? This may lead to migraines, stress, insomnia, and less productivity. JMH offers you the opportunity to relax your muscles at your convenience outside of your home. Please visit our website www.jmhamerica.com for more information.

Thank you for the opportunity to conduct business with you. We wish you many years of health and success.

Your Comfort. Our Happiness.

Here is how the business works...

JMH offers a unique model within the multi-billion dollar vending industry. Other vending opportunities require owners to fill their machines with products that must be purchased up-front. However JMH will send a qualified staff to collect, maintain, and keep the chairs running.

JMH will pay a lease fee to you. All you do is watch your capital grow. It's that simple. JMH chairs are fully insured and we take all necessary risks. We conduct repairs (if necessary), collect money, maintain the chair(s), and pay YOU a fee for allowing us to place our chairs at your location.

Don't you wish all businesses offered a unique opportunity like this? Don't miss out on this lifetime cash flow opportunity. When has anybody offered YOU a chance to make money out of nothing?

JMH Shiatsu Massage Chairs are Engineered for Energy Efficiency.

For a dollar the chairs...

- can be used 2635 times for 3 minute massages
- can be used over 3000 times for 2 minute massages
- can be left on 24 hours a day for 105 days

The Leader in Commercial Vending Massage Chairs

JMH delivers commercial vending massage chairs that are ideal for variety of applications.

- Increase cash flow for an existing business without capital or loans. Place the JMH Shiatsu Massage Chair in almost any location.
- The chairs fit in a small footprint within your existing traffic flow. Plug it into a standard 110 volt electric outlet and sit back and relax- it is really that easy! Let your existing customers create a new stream of revenue for you.
- Increase employee productivity: Place one of our chairs in your employee break room or lounge. The professional style massage will relieve day-to-day stress and allow your employees to work in a more relaxed environment.
- Offer new service to impress: Your employee and customers will be impressed at the new service that you or your company offer to them.

It's all about customer service!
